Compensation Plan

Two Ways to Earn Income

1. Sales Income

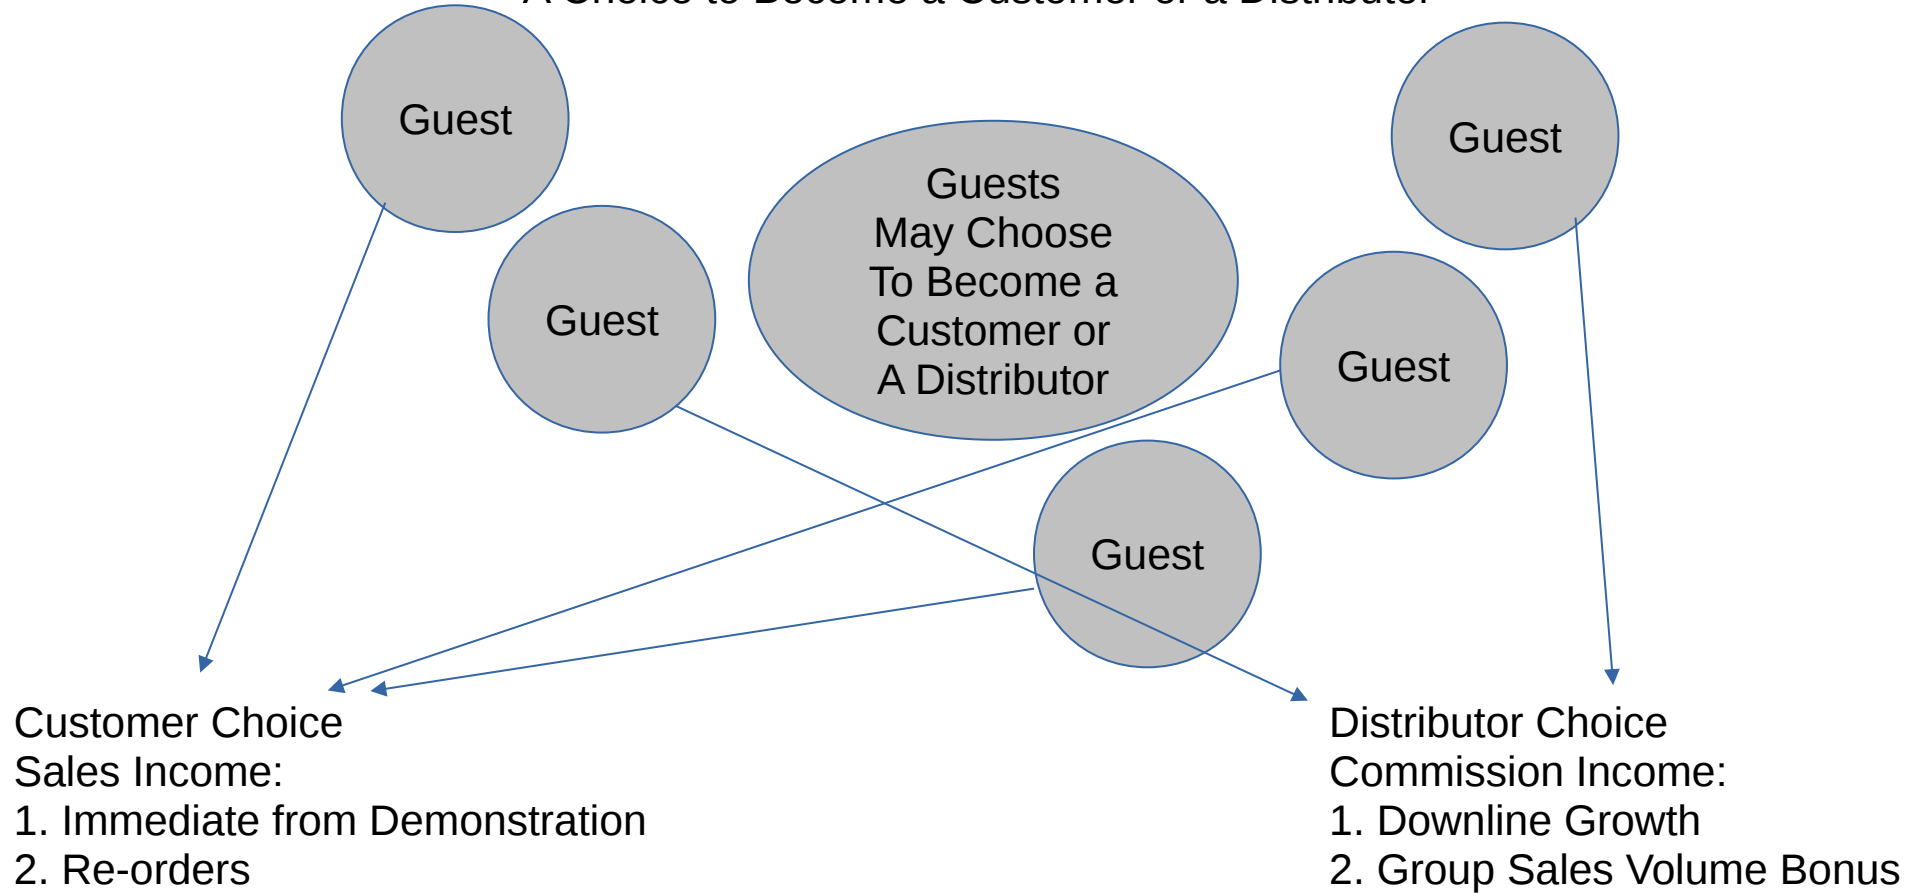

&

2. Commission Income

It All Begins With A Demonstration

&

A Choice to Become a Customer or a Distributor

Sales Income

SheerSense Distributors may purchase products at a discounted wholesale price off Suggested Retail directly from the company and in turn sell products to end consumers for a profit. The difference between the cost of product at wholesale and the Suggested Retail price is the Distributor's profit when sold to a consumer.

Distributor Product Discount Schedule

0 to 99.5 PV = 20% discount
100 to 299.5 PV = 30% discount
300+ PV = 40% discount

Order discount is based on cumulative PV during the calendar month. For example, orders for cumulative PV under 100 receive a 20% discount. Orders that include the 300 PV and each subsequent order during the calendar month will receive a 40% discount regardless of size.

PV (Point Value) equals $\frac{1}{2}$ of 1 Suggested Retail £

There is No “Breakage” in the SheerSense Independent Distributor Compensation Plan

That means you may grow year after
year upon your successes of sponsoring
and training without having to accept
lower earnings for training those
individuals who exceed your own sales
volumes and growth rates!

Independent Distributor Compensation Plan

Once you've place a product order you become an **Active** Distributor

When you have placed at least a 300 PV product order you become a **Qualified** Distributor

Your upline Sponsor will receive both Downline and GSV Bonus Commissions from your orders of any size (Downline) and orders of 101 PV and larger (GSV Bonus) as long as they qualify with qualifying orders within the same month

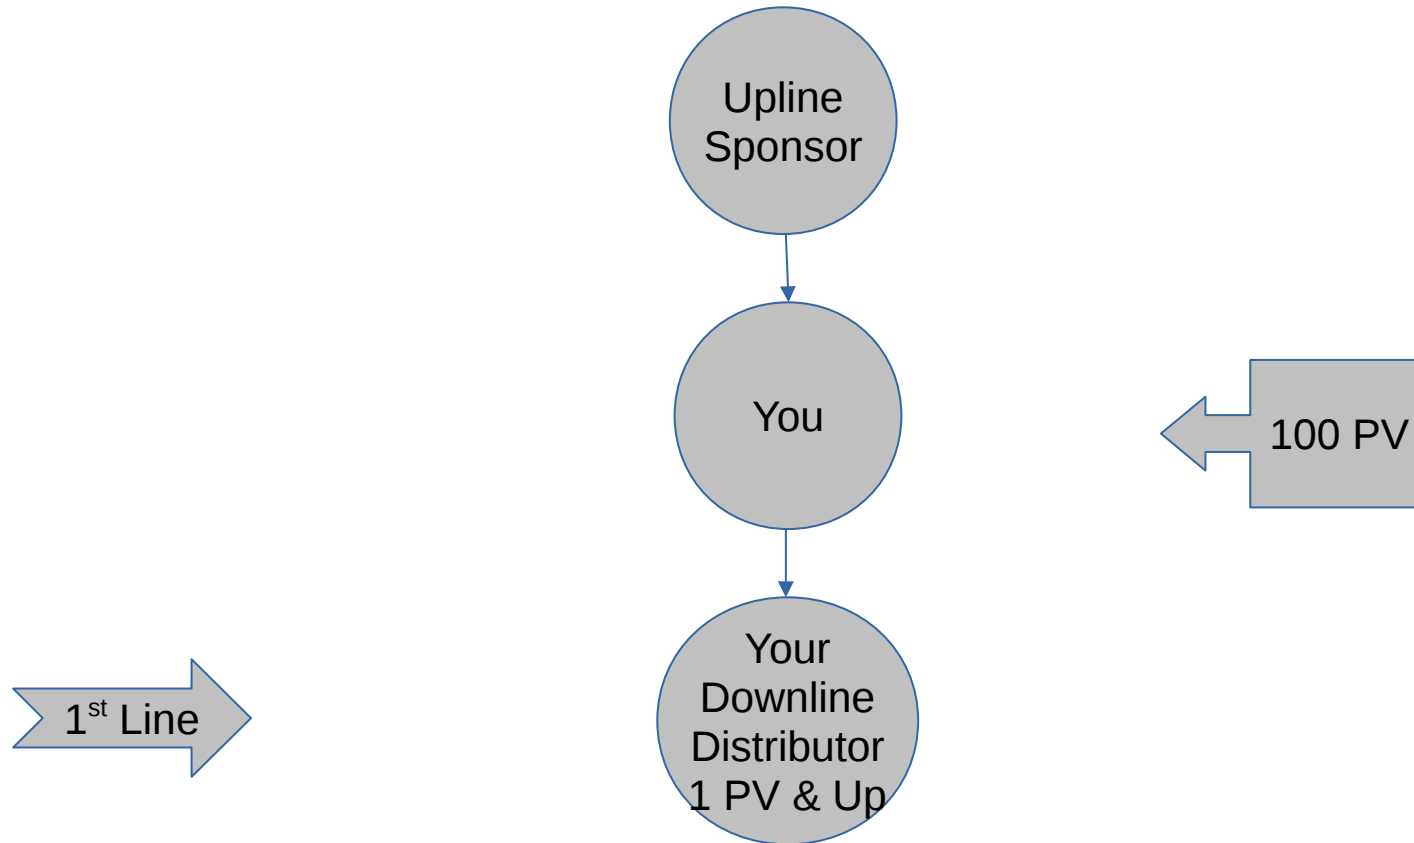

Independent Distributor Compensation Plan

The more you sponsor the greater
your commission earnings as
long as qualifying orders are met

1. Downline Commission

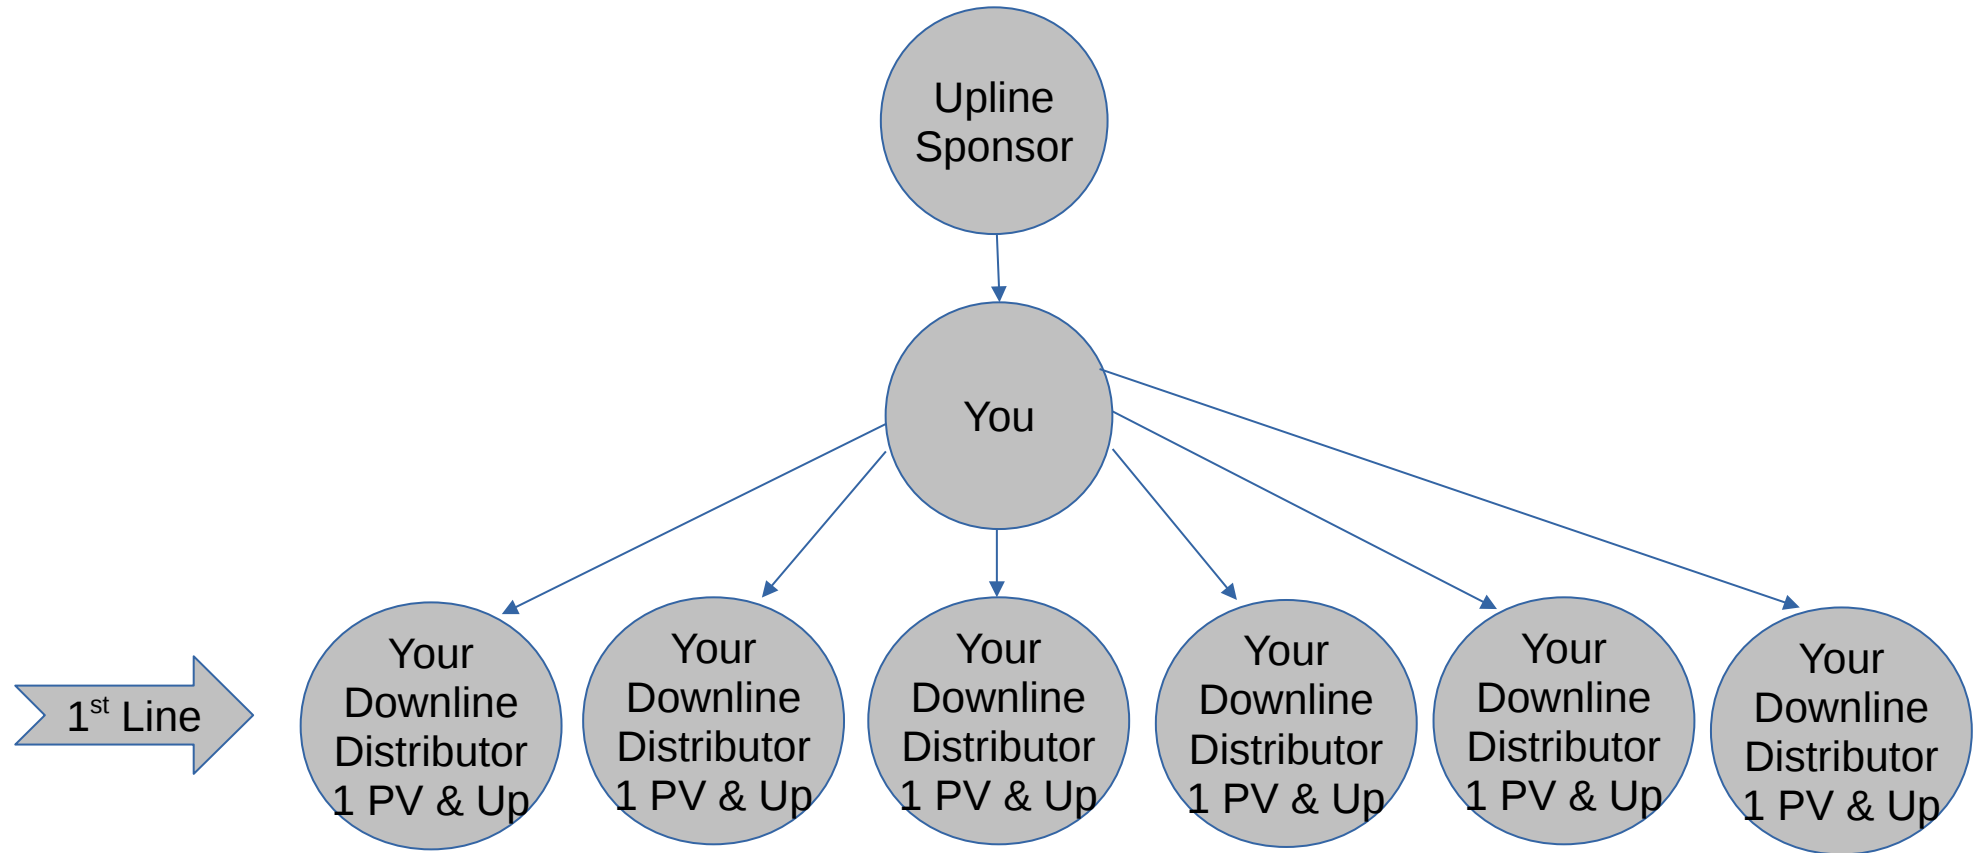

Downline Commission

Infinite Compression

Example of Infinite Compression

In the event of a Distributor on the 1st Line does not place a Product Order within the calendar month for which commissions are being calculated, but the 1st Line Distributor's 1st Line (your 2nd Line Distributor) does; the 2nd Line Distributor shall “compress up” to the 1st Line for calculation of the GSV Commission amount. “Compression” does not, however, apply to the qualification requirements for each level.

That means that instead of receiving the 2nd Line 6% commission pay out for the 2nd Line product Orders, the calculation would be made at the 1st Line 10% level commission pay out.

SheerSense Distributors will always receive the highest payout possible to Infinite Compression for calculation of the payout amount.

Global Compensation Plan

A SheerSense Distributor may build a Downline of Active Distributors in any country in which SeneGence operates a multilevel marketing plan and may receive applicable Downline and group Sales Volume for doing so. That means as the company expands its multilevel marketing model around the world, so may you.

Will SheerSense Business to Heirs
