Neutral base

Combine 3 different
Colours and make
27 different shades

Utilising our different
glosses will give even
more variety

PLEASE NOTE: The colour chart is only a representation of the LIPSENSE LIQUID LIP COLOURS. The actual colour on your lips may vary.

GUIDELINES FOR PRODUCT USE

Shake well before each use. LIPSENSE WAX-FREE SEMI-PERMANENT LIQUID LIP COLOURS are liquid and can spill. Always keep vial in a vertical position and remove applicator slowly. You may feel a tingling sensation when applying LIPSENSE LIQUID LIP COLOUR. This is normal and will pass. The product works best if it is applied to clean dry lips. Avoid contact with inner eye or broken skin. Keep LIPSENSE products out of the reach of children. Avoid contact with clothing and carpeting. If you have a stain or spill, LIPSENSE OOPS! REMOVER may be used along with warm water and soap. Avoid opening while in flight as air pressure may cause splatter or leakage. Keep product away from heat and flame. We suggest that you do not use LIPSENSE products with any other lipstick or eye products, including petroleum jelly, wax, lip balm or Chapstick-like products either over or under LIPSENSE products. They are not compatible and will compromise the staying power of LIPSENSE products. If you notice any adverse reaction discontinue use. If irritation persists, consult a physician.
